

Amendments to the Drawings

Please replace the current drawings with the two replacement sheets enclosed herewith.

REMARKS

In the action mailed December 22, 2008, the Examiner indicated that Fig. 2 needed to be amended. By this paper, Fig. 2 has been amended as suggested by the Examiner to add character references "44A" and "44B" for the valves and character references "46A" and "46B" for the recorder. Additionally, character reference "30" has been replaced with character reference "36." Additionally, both Fig. 1 and Fig. 2 have been redrawn to provide cleaner drawings.

It is believed that these amendments are fully responsive to the request of the Examiner concerning the drawings.

Respectfully submitted,

ISAAC C. VAN DEN BORN and
JOHANNES G. M. SCHILDER
